

AgentNoteStore

September 4, 2026

AgentNoteStore

Kind: Class

Source: [atloria-monorepo/libs/agent-core/src/autonomous/autonomous-loop.ts](https://github.com/atloria-monorepo/libs/agent-core/src/autonomous/autonomous-loop.ts)

Store for session-scoped agent notes.

Shared between the note tool and the TurnHook.

Methods

Method	Signature	Returns
<code>add</code>	<code>add(turn: number, content: string)</code>	<code>AgentNote</code>
<code>getAll</code>	<code>getAll()</code>	<code>AgentNote[]</code>
<code>count</code>	<code>count()</code>	<code>number</code>
<code>format</code>	<code>format()</code>	<code>string</code>

Where it refuses work

- `AgentNoteStore` stops the work with an early return when `this.notes.length === 0`.
