ChatResolutionDto

Kind: Class

Source: [atloria-monorepo/apps/api/src/project/dto/chat-resolution.dto.ts](https://github.com/atloria-monorepo/apps/api/src/project/dto/chat-resolution.dto.ts)

Body for the PUBLIC chat resolution endpoint

(`POST /public/p/:slugWithId/chat/resolution`).

Answers the "Did this solve it?" prompt shown once per session after an assistant answer completes. Persisted as a `chat_resolution` `InteractionEvent` on the shared analytics spine (manuals-insights + ops cockpit read it).

Properties

Property	Type
<code>outcome</code>	<code>'yes'</code>
<code>sessionId</code>	<code>string</code>
