ConsistencyChecker

Kind: Class

Source: [atloria-monorepo/packages/doc-automation/src/v2/stages/stage-11-verification/consistency-checker.ts](https://github.com/atloria-monorepo/packages/doc-automation/src/v2/stages/stage-11-verification/consistency-checker.ts)

ConsistencyChecker - Checks consistency across all documents

After individual document verification, this checker reviews all documents together to catch inconsistencies that wouldn't be visible when looking at documents in isolation.

Methods

Method	Signature	Returns
<code>check</code>	<code>check(documents: GeneratedDocument[])</code>	<code>ConsistencyReport</code>

Where it refuses work

- `ConsistencyChecker` stops the work with an early return when `similarity > 0.6` .
