Consolidator

Kind: Class

Source: [atloria-monorepo/libs/agent-core/src/memory/consolidator.ts](#)

Methods

Method	Signature	Returns
consolidate	consolidate(store: MemoryStore, projectId: string)	ConsolidationReport

Where it refuses work

- Consolidator stops the work with an early return when `confDiff !== 0`.
- Consolidator stops the work with an early return when `a.accessCount !== b.accessCount`.
- Consolidator stops the work with an early return when `absorbedConf > keeperConf`.
