

EnvTracker

September 4, 2026

EnvTracker

Kind: Class

Source: [atloria-monorepo/libs/agent-core/src/tools/env-tracker.ts](#)

Methods

Method	Signature	Returns
isEnvModifyingCommand	isEnvModifyingCommand(command: string)	boolean
capture	capture()	Promise<EnvSnapshot>
getSnapshot	getSnapshot()	`EnvSnapshot
getChanges	getChanges()	Record<string, { from?: string; to: string }>
formatForContext	formatForContext()	string
getCaptureCount	getCaptureCount()	number

Where it refuses work

- `EnvTracker` stops the work with an early return when `!this.currentSnapshot`, in 2 places.

When something fails

- `EnvTracker` handles failure in 1 place: it discards it silently in all 1.
