

FileCache

September 4, 2026

FileCache

Kind: Class

Source: `atloria-monorepo/packages/doc-automation/src/v2/stages/stage-01-parse/services/entity-mapper.service.ts`

Methods

Method	Signature	Returns
<code>getLines</code>	<code>getLines(absolutePath: string)</code>	<code>`string[]`</code>
<code>clear</code>	<code>clear()</code>	<code>void</code>

Where it refuses work

- `FileCache` stops the work with an early return when `this.cache.has(absolutePath)` .

When something fails

- `FileCache` handles failure in 1 place: it turns it into a return value in all 1.
