

NestJSDetector

September 4, 2026

NestJSDetector

Kind: Class

Source: [atloria-monorepo/packages/doc-automation/src/v2/stages/stage-01-parse/detectors/nestjs-detector.ts](https://github.com/atloria-monorepo/packages/doc-automation/src/v2/stages/stage-01-parse/detectors/nestjs-detector.ts)

NestJS Detector

Methods

Method	Signature	Returns
<code>detectControllers</code>	<code>detectControllers(entities: Entity[])</code>	<code>DetectedNestJSController[]</code>
<code>detectServices</code>	<code>detectServices(entities: Entity[])</code>	<code>DetectedNestJSService[]</code>
<code>getControllerSummary</code>	<code>getControllerSummary(controller: DetectedNestJSController)</code>	<code>string</code>

Where it refuses work

- `NestJSDetector` stops the work with an early return when `!match`.
