SamlAttributeMappingDto

Kind: Class

Source: [atloria-monorepo/apps/api/src/auth/saml/dto/saml.dto.ts](https://github.com/atloria-monorepo/apps/api/src/auth/saml/dto/saml.dto.ts)

SAML attribute mapping — each value is the assertion attribute name/claim URI to read the corresponding user field from. All optional; sensible fallbacks are applied server-side when a field is unmapped.

Properties

Property	Type
email	string
name	string
firstName	string
lastName	string
groups	string
