SetPlanDto

Kind: Class

Source: [atloria-monorepo/apps/api/src/platform/dto/set-plan.dto.ts](https://github.com/atloria-monorepo/apps/api/src/platform/dto/set-plan.dto.ts)

Set an org's plan. Two modes, mutually informative:

- `plan` alone → change the org's base (Stripe) plan directly.
- `override` (+ optional `overrideDays`) → a manual, auto-expiring grant that wins over the base plan for a trial/POC without touching Stripe.
Pass `override: 'CLEAR'` to remove an active override.

Properties

Property	Type
<code>plan</code>	<code>PlanValue</code>
<code>override</code>	<code>`PlanValue</code>
<code>overrideDays</code>	<code>number</code>
<code>reason</code>	<code>string</code>
