SiteGenerator

Kind: Class

Source: `atloria-monorepo/apps/cli/src/generators/site.generator.ts`

Static Site Generator

Methods

Method	Signature	Returns
<code>generate</code>	<code>generate(metadata: ProjectMetadata, entities: Entity[], relationships: Relationship[])</code>	<code>Promise<void></code>

Where it refuses work

- `SiteGenerator` stops the work with an early return when `!fs.existsSync(uiCoreBundlePath)` .
- `SiteGenerator` stops the work with an early return when `hasChildren` .
- `SiteGenerator` stops the work with an early return when `!filePath || !fs.existsSync(filePath)` .
- `SiteGenerator` stops the work with an early return when `!str || typeof str !== 'string'` .

When something fails

- `SiteGenerator` handles failure in 3 places: it discards it silently in 2, and turns it into a return value in 1.
