

# SpringDetector

September 4, 2026

## SpringDetector

**Kind:** Class

**Source:** [atloria-monorepo/packages/doc-automation/src/v2/stages/stage-01-parse/detectors/spring-detector.ts](https://github.com/atloria-monorepo/packages/doc-automation/src/v2/stages/stage-01-parse/detectors/spring-detector.ts)

Spring Boot Detector

## Methods

| Method                            | Signature                                                               | Returns                                 |
|-----------------------------------|-------------------------------------------------------------------------|-----------------------------------------|
| <code>detectControllers</code>    | <code>detectControllers(entities: Entity[])</code>                      | <code>DetectedSpringController[]</code> |
| <code>detectServices</code>       | <code>detectServices(entities: Entity[])</code>                         | <code>DetectedSpringService[]</code>    |
| <code>detectEntities</code>       | <code>detectEntities(entities: Entity[])</code>                         | <code>DetectedJPAEntity[]</code>        |
| <code>getControllerSummary</code> | <code>getControllerSummary(controller: DetectedSpringController)</code> | <code>string</code>                     |

## Where it refuses work

- `SpringDetector` stops the work with an early return when `!paramsStr.trim()`.
