

TableNode

September 4, 2026

TableNode

Kind: Class

Source: [atloria-monorepo/packages/editor/src/plugins/table/TableNode.tsx](#)

Extends: [DecoratorNode](#)

Methods

Method	Signature	Returns
getType	getType()	string
clone	clone(node: TableNode)	TableNode
importJSON	importJSON(serializedNode: SerializedTableNode)	TableNode
importDOM	importDOM()	`DOMConversionMap
exportJSON	exportJSON()	SerializedTableNode
getMdstNode	getMdstNode()	Mdst.Table
getRowCount	getRowCount()	number
getColCount	getColCount()	number
createDOM	createDOM()	HTMLElement
updateDOM	updateDOM()	false
updateCellContents	updateCellContents(colIndex: number, rowIndex: number, children: Mdst.PhrasingContent[])	void
insertColumnAt	insertColumnAt(colIndex: number)	void
deleteColumnAt	deleteColumnAt(colIndex: number)	void
insertRowAt	insertRowAt(y: number)	void

Method	Signature	Returns
<code>deleteRowAt</code>	<code>deleteRowAt(rowIndex: number)</code>	<code>void</code>
<code>addRowToBottom</code>	<code>addRowToBottom()</code>	<code>void</code>
<code>addColumnToRight</code>	<code>addColumnToRight()</code>	<code>void</code>
<code>setColumnAlign</code>	<code>setColumnAlign(colIndex: number, align: Mdast.AlignType)</code>	<code>void</code>
<code>decorate</code>	<code>decorate(parentEditor: LexicalEditor)</code>	<code>JSX.Element</code>
<code>select</code>	<code>select(coords: [colIndex: number, rowIndex: number])</code>	<code>void</code>
<code>isInline</code>	<code>isInline()</code>	<code>false</code>

Properties

Property	Type
<code>__mdastNode</code>	<code>Mdast.Table</code>
<code>focusEmitter</code>	<code>any</code>
