

VercelAIModelProvider

September 4, 2026

VercelAIModelProvider

Kind: Class

Source: `atloria-monorepo/libs/agent-core/src/runtime/vercel-ai-adapter.ts`

Implements: `IModelProvider`

Methods

Method	Signature	Returns
<code>getResponse</code>	<code>getResponse(request: ModelProviderRequest)</code>	<code>Promise<ModelProviderResponse></code>
<code>getStreamedResponse</code>	<code>getStreamedResponse(request: ModelProviderRequest)</code>	<code>AsyncIterable<unknown></code>
<code>getProfile</code>	<code>getProfile()</code>	<code>ModelCapabilityProfile</code>

Where it refuses work

- `VercelAIModelProvider` stops the work with an early return when `item.role === 'tool'` .
- `VercelAIModelProvider` stops the work with an early return when `item.role === 'assistant' && item.toolCalls?.length` .

When something fails

- `VercelAIModelProvider` handles failure in 1 place: it turns it into a return value in all 1.
