## EXPLORER\_ELEMENTS

---

**Kind:** Constant

**Source:** [atloria-monorepo/packages/ui-core/src/components/api-explorer/theme.ts](https://github.com/atloria-monorepo/packages/ui-core/src/components/api-explorer/theme.ts)

Every custom element the explorer ships. The sheet targets all of them so a panel used on its own is themed too; nested ones would inherit from the root explorer regardless.
