

GPT54_FAMILY_ROUTING_TABLE

September 4, 2026

GPT54_FAMILY_ROUTING_TABLE

Kind: Constant

Source: atloria-monorepo/libs/agent-core/src/runtime/model-router.ts

Production routing table for atlas-docs-resource (East US 2).

Use this when all three GPT-5.4 family models are deployed.

Cost profile vs using gpt-5.6-terra for everything:

- 60-70% of calls (explore/analyze/tool_dispatch) → nano/mini → ~15-6x cheaper
- plan/implement (quality-critical) → gpt-5.6-terra full
