

insertDirectiveBlock\$

September 4, 2026

insertDirectiveBlock\$

Kind: Constant

Source: [atloria-monorepo/packages/editor/src/plugins/slash-menu/index.tsx](https://github.com/atloria-monorepo/packages/editor/src/plugins/slash-menu/index.tsx)

Inserts a directive block from a full mdast payload (unlike `insertDirective$`, which only takes `type / name / attributes`, this seeds children too).
