MAX_TIME_ON_PAGE_SECONDS

Kind: Constant

Source: [atloria-monorepo/apps/api/src/analytics/utils/tracking-utils.ts](https://github.com/atloria-monorepo/apps/api/src/analytics/utils/tracking-utils.ts)

Maximum reasonable time-on-page in seconds. Tabs left open overnight would otherwise produce values like 80,000 seconds and destroy averages. 30 minutes is generous for "actively reading a long doc" while still filtering out the long tail of forgotten tabs.
