/compare/gitbook — bottom-funnel "gitbook alternative" / "atloria vs gitbook".

Fair by design: concedes GitBook's real strengths (authoring-workflow maturity + Git Sync, collaboration maturity, SOC 2 Type II + ISO 27001, richer adaptive content, and their newly-shipped 8 comparison pages) and only claims Atloria capabilities that are live-verified. Every competitor fact is from gitbook.com's live docs/pricing (verified 2026-07-11). Design mirrors /product/agent-actions: light + colorful.
