September 4, 2026

SDK_GENERATOR_VERSION

Kind: Constant

Source: atloria-monorepo/libs/parser-core/src/openapi/sdk-packaging.ts

The PINNED openapi-generator release. The sdk-worker Dockerfile downloads exactly this jar (keep the two in sync — apps/sdk-worker/Dockerfile ARG GENERATOR_VERSION). Bumping the pin is a deliberate full regen: existing artifacts carry the old version, the enqueue hook sees the mismatch and re-enqueues every enabled language on the next spec upsert.
