TECHDOCS_GENERATE_CREDIT_COST

Kind: Constant

Source: [atloria-monorepo/apps/api/src/billing/billing.constants.ts](https://github.com/atloria-monorepo/apps/api/src/billing/billing.constants.ts)

Technical-docs / RAG operation costs (Tier 1 metering). Scaled against the 1,000-credit full generation: a technical regen is parse+materialize (no screenshots/AI authoring); indexing/enrichment are bounded worker jobs; ask/assist are single LLM round-trips. The PROJECT'S OWNING ORG pays — including for anonymous chat on public projects (your public docs' AI burns your credits).
