

addCodeSamplesToSpec

September 4, 2026

addCodeSamplesToSpec

Kind: Function

Source: `atloria-monorepo/libs/parser-core/src/openapi/code-samples.ts`

Attach `x-codeSamples` to every operation in the spec (mutates + returns it). Requires the full spec so `$ref` request/response schemas resolve into example payloads.

Signature

```
function addCodeSamplesToSpec(spec: any, targets: string[]): any
```

Parameters

Name	Type
<code>spec</code>	<code>any</code>
<code>targets</code>	<code>string[]</code>

Returns: `any`
