applyHunks

Kind: Function

Source: `atloria-monorepo/libs/agent-core/src/tools/edit-file.tool.ts`

Apply parsed hunks to file content with fuzzy line offset matching.

Hunks are applied in reverse order (bottom-to-top) to preserve line numbers.

Signature

```
function applyHunks(content: string, hunks: DiffHunk[], fuzzLines): { success: boolean; content
```

Parameters

Name	Type
<code>content</code>	<code>string</code>
<code>hunks</code>	<code>DiffHunk[]</code>
<code>fuzzLines</code>	<code>any</code>

Returns: `{ success: boolean; content?: string; error?: string; lastNewText?: string }`
