

# assertPublicHttpUrl

September 4, 2026

---

## assertPublicHttpUrl

---

**Kind:** Function

**Source:** [atloria-monorepo/apps/api/src/technical-docs/ssrf.ts](https://github.com/atloria-monorepo/apps/api/src/technical-docs/ssrf.ts)

Validate that a URL is http(s) and does not point at a private address (by hostname pattern or DNS resolution). Throws BadRequestException.

### Signature

```
async function assertPublicHttpUrl(rawUrl: string): Promise<URL>
```

### Parameters

| Name   | Type   |
|--------|--------|
| rawUrl | string |

**Returns:** Promise<URL>
