buildBashEnv

Kind: Function

Source: [atlolia-monorepo/libs/agent-core/src/benchmark/agent-hardening.ts](https://github.com/atlolia-monorepo/libs/agent-core/src/benchmark/agent-hardening.ts)

Build bash environment with pager-disabling variables.

Pattern from SWE-agent: Disable all interactive pagers and progress bars to prevent the agent's bash commands from hanging on user input prompts.

Merges with existing env, overriding pager-related vars.

Signature

```
function buildBashEnv(existingEnv: Record<string, string | undefined>): Record<string, string>
```

Parameters

Name	Type
existingEnv	`Record<string, string

Returns: `Record<string, string>`
