buildCodeReviewPlan

Kind: Function

Source: `atloria-monorepo/libs/agent-core/src/autonomous/workflows/code-review.ts`

Build a code review orchestration plan.

Launches 3 parallel reviewers with different focuses and applies confidence-based filtering to produce a deduplicated, prioritized issue list.

Signature

```
function buildCodeReviewPlan(options: {
  diffContext?: string;
  guidelines?: string;
  confidenceThreshold?: number;
}): OrchestrationPlan
```

Parameters

Name	Type
options	{
diffContext?: string;	
guidelines?: string;	
confidenceThreshold?: number;	
}	

Returns: `OrchestrationPlan`
