buildPAMSIIntelligence

Kind: Function

Source: `atloria-monorepo/packages/doc-automation/src/v2/stages/stage-12-screenshots/agent-screenshot-mapper.ts`

Pre-built intelligence for PAMS — in production this would be generated by the agent reading the source code. For the POC, we extracted it manually from the routing analysis.

Signature

```
function buildPAMSIIntelligence(): SourceCodeIntelligence
```

Returns: `SourceCodeIntelligence`
