buildPrediction

Kind: Function

Source: `atloria-monorepo/libs/agent-core/src/benchmark/swebench-evaluator.ts`

Convert a TaskResult to SWE-bench prediction format.
Used for both successful and failed tasks (autosubmit pattern — even partial patches are worth submitting).

Signature

```
function buildPrediction(result: TaskResult, modelName: string): SWEBenchPrediction
```

Parameters

Name	Type
<code>result</code>	<code>TaskResult</code>
<code>modelName</code>	<code>string</code>

Returns: `SWEBenchPrediction`
