

buildSearchIndex

September 4, 2026

buildSearchIndex

Kind: Function

Source: atloria-monorepo/apps/api/src/technical-docs/search-index.ts

Pure transform: corpus pages + entity graph → a compact static search index.
Deterministic for identical inputs (stable order, stable ids).

Signature

```
function buildSearchIndex(slugWithId: string, pages: RawIndexPage[], entities: GraphEntity[], r
```

Parameters

Name	Type
slugWithId	string
pages	RawIndexPage[]
entities	GraphEntity[]
relationships	GraphRelationship[]
generatedAt	Date

Returns: StaticSearchIndex
