buildSeoMetadata

Kind: Function

Source: `atloria-monorepo/libs/pme-core/src/tools/seo-metadata.tool.ts`

Build SEO metadata from page info.
Deterministic template — no AI call needed for basic metadata.

Signature

```
function buildSeoMetadata(params: {
  pageTitle: string;
  pageSummary: string;
  productName?: string;
  heroImageUrl?: string;
  keywords?: string[];
}): SeoMetadata
```

Parameters

Name	Type
<code>params</code>	<code>{</code>
<code>pageTitle: string;</code>	
<code>pageSummary: string;</code>	
<code>productName?: string;</code>	
<code>heroImageUrl?: string;</code>	
<code>keywords?: string[];</code>	
<code>}</code>	

Returns: SeoMetadata
