

buildTranslationPrompt

September 4, 2026

buildTranslationPrompt

Kind: Function

Source: atloria-monorepo/apps/api/src/l10n/translation-format.ts

The translation prompt. Output contract: first line `TITLE: <translated title>` , then a blank line, then ONLY the translated markdown. `parseTranslationOutput` tolerates a model that forgets the title line (title falls back to the source).

Signature

```
function buildTranslationPrompt(input: TranslationPromptInput): string
```

Parameters

Name	Type
input	TranslationPromptInput

Returns: `string`
