clampTimeOnPage

Kind: Function

Source: `atloria-monorepo/apps/api/src/analytics/utils/tracking-utils.ts`

Clamp a raw time-on-page value to a reasonable upper bound and floor at 0.
Returns null if the input is null/undefined so the column stays nullable.

Signature

```
function clampTimeOnPage(timeOnPage: number | null | undefined): number | null
```

Parameters

Name	Type
<code>timeOnPage</code>	<code>`number</code>

Returns: `number | null`
