createChunkId

Kind: Function

Source: `atloria-monorepo/libs/agent-core/src/semantic/types.ts`

Create a deterministic chunk ID from file path, start line, and content.
Returns first 12 hex chars of a SHA-256 hash.

Signature

```
function createChunkId(file: string, startLine: number, content: string): string
```

Parameters

Name	Type
<code>file</code>	<code>string</code>
<code>startLine</code>	<code>number</code>
<code>content</code>	<code>string</code>

Returns: `string`
