createLearningPathTemplate

Kind: Function

Source: `atloria-monorepo/packages/doc-automation/src/v2/types/stage-14.types.ts`

Generate a learning path doc template for a given persona.

Learning paths are dynamic (per-persona), so they use this template factory.

Signature

```
function createLearningPathTemplate(persona: { name: string; description: string }): FixedDocTe
```

Parameters

Name	Type
<code>persona</code>	<code>{ name: string; description: string }</code>

Returns: `FixedDocTemplate`
