createRuntime

Kind: Function

Source: [atloria-monorepo/libs/agent-core/src/runtime/runtime-factory.ts](#)

Create an IAgentLoop from config.

This is the recommended way to create a runtime — replaces manual

`new AzureModelProvider() + new AgentRuntime()` construction.

Signature

```
function createRuntime(config: RuntimeConfig): IAgentLoop
```

Parameters

Name	Type
<code>config</code>	<code>RuntimeConfig</code>

Returns: `IAgentLoop`
