createSiteGenAgent

Kind: Function

Source: [atloria-monorepo/libs/site-gen-core/src/assembler/agents/site-gen.agent.ts](#)

Create the site generation agent config.

Usage:

```
const agent = createSiteGenAgent(config, deps);
const result = await runtime.run(agent, {
  data: { projectId, userId, outputDir },
  input: 'Generate a marketing site for this project.',
});
```

Signature

```
function createSiteGenAgent(config: SiteGenConfig, deps: SiteGenDependencies): AgentConfig<Site
```

Parameters

Name	Type
config	SiteGenConfig
deps	SiteGenDependencies

Returns: AgentConfig<SiteGenContext>
