

createTabsBlockMdast

September 4, 2026

createTabsBlockMdast

Kind: Function

Source: [atloria-monorepo/packages/editor/src/plugins/slash-menu/index.tsx](https://github.com/atloria-monorepo/packages/editor/src/plugins/slash-menu/index.tsx)

NOTE: the tabs/cards skeletons seed ONLY the leaf markers (no empty paragraphs) — empty paragraphs serialize as stray blank lines, so a marker-only skeleton is exactly the canonical (normalizer-stable) form.

Signature

```
function createTabsBlockMdast(): ContainerDirective
```

Returns: `ContainerDirective`
