createTestGate

Kind: Function

Source: [atloria-monorepo/libs/agent-core/src/autonomous/test-watcher.ts](#)

Creates a QualityGate array that checks whether tests pass.

If a TestWatcher is provided, uses its last result to avoid re-running.

If a LintTestLoop is provided, uses its state to check verification recency.

Signature

```
function createTestGate(config: TestGateConfig, lintTestLoop: LintTestLoop, testWatcher: TestWa
```

Parameters

Name	Type
config	TestGateConfig
lintTestLoop	LintTestLoop
testWatcher	TestWatcher

Returns: QualityGate[]
