CustomDomainPathPage

Kind: Function

Source: `atloria-monorepo/apps/web/src/app/customdomain/[host]/[...path]/page.tsx`

Custom-domain path handler (docs.customer.com/audience/document)

Middleware rewrites docs.customer.com/developers/getting-started

→ /customdomain/docs.customer.com/developers/getting-started

Resolves host → slugId, then redirects to /p/[slugId]/[...path]

Signature

```
async function CustomDomainPathPage({ params }: CustomDomainPathPageProps)
```
