

customerToSubstratePath

September 4, 2026

customerToSubstratePath

Kind: Function

Source: `atloria-monorepo/apps/api/src/git-sync/git-sync.types.ts`

customer `<prefix>/<rest>` → substrate `docs/<rest>` . Null when the path is outside the managed prefix or inside the machine-owned `<prefix>/atloria/` manifest folder.

Signature

```
function customerToSubstratePath(prefix: string, customerPath: string): string | null
```

Parameters

Name	Type
<code>prefix</code>	<code>string</code>
<code>customerPath</code>	<code>string</code>

Returns: `string | null`
