diffEntities

Kind: Function

Source: atloria-monorepo/libs/parser-core/src/techdocs/staleness.ts

Diff a previous hash map against the current entities → what to regenerate/upsert/delete.

Signature

```
function diffEntities(prevHashes: Record<string, string>, entities: Entity[]): EntityDiff
```

Parameters

Name	Type
prevHashes	Record<string, string>
entities	Entity[]

Returns: EntityDiff
