fromScimUser

Kind: Function

Source: `atloria-monorepo/apps/api/src/scim/scim.mapper.ts`

Extract the writable fields from an inbound SCIM User resource.

- email: userName, falling back to the primary (or first) email
- name: name.formatted → "given family" → displayName → email local-part
- active: defaults to TRUE when omitted (SCIM create default)

Signature

```
function fromScimUser(resource: Partial<ScimUserResource> | undefined | null): ScimUserInput
```

Parameters

Name	Type
<code>resource</code>	<code>`Partial</code>

Returns: `ScimUserInput`
