generateScimToken

Kind: Function

Source: `atloria-monorepo/apps/api/src/scim/scim.constants.ts`

Mint a new opaque SCIM bearer token (shown to the admin exactly once) plus its sha256 hash (the only thing persisted). 30 random bytes → 60 hex chars.

Signature

```
function generateScimToken(): { plaintext: string; hash: string }
```

Returns: `{ plaintext: string; hash: string }`
