

GET

September 4, 2026

GET

Kind: Function

Source: [atloria-monorepo/apps/web/src/app/p/\[slugId\]/llms.txt/route.ts](https://github.com/atloria-monorepo/apps/web/src/app/p/[slugId]/llms.txt/route.ts)

Slug-fronted, same-origin llms.txt for a published site: /p//llms.txt — the discoverable agent-native index (Mintlify/GitBook parity). Proxies the API's urlId-keyed generator so crawlers/agents never touch the internal projectId/API origin.

Signature

```
async function GET(req: Request, ctx: { params: Promise<{ slugId: string }> })
```

Parameters

Name	Type
req	Request
ctx	{ params: Promise<{ slugId: string }> }
