normalizeIcon

Kind: Function

Source: `atloria-monorepo/apps/api/src/document/utils/icon-mapper.ts`

Convert an Ant Design icon name to emoji

Returns null if no icon provided, returns emoji if found, otherwise returns original value

Signature

```
function normalizeIcon(icon: string | null | undefined): string | null
```

Parameters

Name	Type
<code>icon</code>	<code>`string</code>

Returns: `string | null`
