

# processScreenshots

September 4, 2026

## processScreenshots

**Kind:** Function

**Source:** `atloria-monorepo/apps/cli/src/utils/screenshot-storage.helper.ts`

Process and save screenshots using storage helper

This handles intelligent deduplication and metadata tracking

## Signature

```
async function processScreenshots(screenshots: ScreenshotInfo[], storage: StorageHelperService)
```

## Parameters

| Name                     | Type                              |
|--------------------------|-----------------------------------|
| <code>screenshots</code> | <code>ScreenshotInfo[]</code>     |
| <code>storage</code>     | <code>StorageHelperService</code> |

**Returns:** `Promise<Array<{ original: ScreenshotInfo; saved: { id: string; url: string; isNew: boolean } }>>`
