robots

Kind: Function

Source: [atloria-monorepo/apps/web/src/app/robots.ts](https://github.com/atloria-monorepo/apps/web/src/app/robots.ts)

robots.txt — allow crawlers (incl. AI crawlers) to index published docs under /p/, keep the authenticated app (/app) and API-ish paths out, and advertise the sitemap. Per-site llms.txt is discovered via the hints in each site's .

Signature

```
function robots(): MetadataRoute.Robots
```

Returns: `MetadataRoute.Robots`
