toRelativePath

Kind: Function

Source: `atloria-monorepo/packages/doc-automation/src/v2/stages/stage-01-parse/services/entity-mapper.service.ts`

Convert an absolute file path to a path relative to the repo root.
Always uses forward slashes.

Signature

```
function toRelativePath(absolutePath: string, normalizedRepoPath: string): string
```

Parameters

Name	Type
<code>absolutePath</code>	<code>string</code>
<code>normalizedRepoPath</code>	<code>string</code>

Returns: `string`
