

useDocumentationConfig

September 4, 2026

useDocumentationConfig

Kind: Function

Source: [atloria-monorepo/apps/web/src/hooks/useDocumentationConfig.ts](#)

Custom hook for documentation configuration

Manages auto-doc configuration for projects including:

- Loading/Creating/Updating/Deleting config
- Local skeleton structure editing
- Dirty state tracking

Signature

```
function useDocumentationConfig(options: UseDocumentationConfigOptions): UseDocumentationConfig
```

Parameters

Name	Type
options	UseDocumentationConfigOptions

Returns: UseDocumentationConfigReturn
