ApiTargetPublicConfig

Kind: Interface

Source: [atloria-monorepo/apps/api/src/technical-docs/technical-docs.service.ts](https://github.com/atloria-monorepo/apps/api/src/technical-docs/technical-docs.service.ts)

What the config read/write endpoints expose — NEVER the auth value (only whether one is set).

Properties

Property	Type
baseUrl	string
authHeaderName	string
allowWrites	boolean
enabled	boolean
hasAuth	boolean
writeAllowlist	string[]
oauth2	`PlaygroundOAuth2Input
