ContextItem

Kind: Interface

Source: `atloria-monorepo/libs/agent-core/src/context/context-manager.ts`

Context Manager

Generic context window management:

- Token tracking per turn
- Auto-compaction at configurable threshold
- Pluggable compaction strategy

Zero SDK imports — operates on our own interfaces.

Properties

Property	Type
<code>id</code>	<code>string</code>
<code>role</code>	<code>`system`</code>
<code>content</code>	<code>string</code>
<code>turn</code>	<code>number</code>
<code>tokenEstimate</code>	<code>number</code>
<code>tags</code>	<code>string[]</code>
